NAME THE TEAM CONTEST

The Blue Jays were named in a contest conducted in June and July of 1976. Over 30,000 individual entries were received, suggesting over 4,000 names for the new American League club. From the list of names submitted, specially-appointed panels of judges selected ten names to submit to the Board of Directors. The Directors chose the name "Blue Jays" from that list and announced their decision on August 12th, at which time the team officially became the Toronto Blue Jays Baseball Club.

A total of 154 people submitted the name Blue Jays, and a drawing was held to select a grand prize winner from those who submitted the name. Dr. William Mills of Etobicoke, Ontario, won a pair of season tickets for 1977 and an all-expenses paid trip for himself and his family to watch the Blue Jays at spring training in Dunedin, Florida. Nine runners-up also won season tickets.

NAME THE TEAM CONTEST (Continued)

In making the announcement of the name, the Directors noted that "the Blue Jay is a North American bird, bright blue in color, with white undercovering and a black necklace. It is strong, aggressive, and inquisitive. It dares to take on all comers, yet is down-to-earth, gutsy, and good-looking."

BLUE JAYS LOGO

The Blue Jays logo was created by the Toronto design firm of Savage Sloan, Ltd. It depicts a stylized Blue Jay on a red baseball outline incorporating a red maple leaf. The logo features two shades of blue, and red. It was selected to represent three facets of the club's identity: the team name, baseball, and the fact that the team is Canadian.

TOM CHEEK AND EARLY WYNN

Blue Jays Radio Broadcast Team

The play-by-play of every Blue Jays regular season game, home and away, is handled by Tom Cheek and Early Wynn on the 20 stations of the Hewpex Sports Network.

Tom was born in Pensacola, Florida, and is 38 years old. He attended Plattsburg State College, Plattsburg, New York, and the Cambridge School of Broadcasting. He began his broadcasting career in Plattsburg and moved to Burlington, Vermont, where from 1968 to 1976 he was corporate sales manager and sports director for a group of three radio stations (WVMT in Burlington, WSYB and WRUT-FM in Rutland).

Tom has done extensive sports broadcasting, including play-by-play of baseball, basketball, football, and hockey for the University of Vermont. From 1974 to 1976 he was also a member of the radio broadcast team for the Montreal Expos.

He has long been active in community affairs and was instrumental in organizing the Burlington International Games, an annual sports competition held between the residents of Burlington, Ontario (where he and his family now reside), and Burlington, Vermont.

Tom is married and has three children – Tom Jr. (11), Lisa (8), and Jeffrey (7). His wife Shirley hails from Hemmingford, Quebec.

Early Wynn, member of Baseball's Hall of Fame and one of the great pitchers in baseball history, joins Tom for color commentary and play-by-play. Although new to broadcasting, with 1977 being his rookie season behind the mike, the 58 year-old native of Hartford, Alabama, is one of only six men ever to play major league baseball in four different decades.

Early's historic career began in 1939 with the Washington Senators and continued until 1963, when he won his 300th game as a member of the Cleveland Indians. "Gus", as he is called, was a key member of the legendary Indians pitching staff of the late Forties and early Fifties, winning 20 games or more four times for the Tribe and once later with the Chicago White Sox.

Early also appeared in the World Series in three different years (1948, 1954, and 1959).

As one of only 14 men ever to win 300 games in the major leagues, Early was inducted into the Hall of Fame in 1971.

His vast store of baseball knowledge, anecdotes, and colorful wit and personality makes Early a popular member of the broadcast team, which reaches over one million people throughout Ontario and New York on the Hewpex Sports Network.

Exhibition Stadium is situated on the grounds of Exhibition Place at the edge of Lake Ontario in downtown Toronto. The fairgrounds site is a 350-acre complex of exhibition buildings, amusement park, landscaped gardens, restaurants, and concert facilities. It is the home of the Canadian National Exhibition, the largest fair of its kind in the world. The Exhibition, one hundred years old this summer, annually attracts over three million visitors in its three-week run from mid-August through Labour Day.

The Stadium also overlooks Ontario Place, a provincial park and entertainment complex of restaurants, cinemas, exhibits, recreation facilities, children's village, and a marina, all in a strikingly modern setting.

The Stadium is owned by the Municipality of Metropolitan Toronto and operated by the Exhibition Stadium Corporation. Built at a cost of $17.8 million and financed by Metropolitan Toronto and a loan from the Province of Ontario, the Stadium is the home of the Blue Jays and the Toronto Argonauts of the Canadian Football League.

PITCHERS BATTING

No Blue Jays pitcher went to bat in 1977 and no pitcher currently with the team has batted in the American League since the introduction of the designated hitter rule in 1973.

Only two pitchers batted in the American League in 1977, Vida Blue and Jim Norris, both of Oakland. Each struck out in his only plate appearance. The last pitcher to hit safely in the American League was Ken Brett of the Chicago White Sox in 1976.

RULES OF INTEREST

PLAYER LIMITS: 40 until opening day, when the number must be reduced to 25 until September 1, when it again becomes 40.

DETERMINING BATTING AVERAGE: Divide the number of at bats into the number of hits.

DETERMINING AN EARNED-RUN AVERAGE: Multiply the number of earned runs by nine; take the number and divide it by the number of innings pitched.

DETERMINING SLUGGING PERCENTAGE: Divide the total bases of all safe hits by the total times at bat (At bats do not include walks, sacrifices, hit by pitcher, or times awarded first base because of interference or obstruction).

DETERMINING FIELDING AVERAGE: Divide the total putouts and assists by the total of putouts, assists and errors.

DETERMINING PERCENTAGE OF GAMES WON AND LOST: Divide the number of games won by the total games won and lost.

CONSECUTIVE HITTING STREAKS: A consecutive hitting streak shall not be terminated if the plate appearance results in a base on balls, hit batsman, defensive interference or a sacrifice bunt. A sacrifice fly shall terminate the streak.

CONSECUTIVE-GAME HITTING STREAKS: A consecutive-game hitting streak shall not be terminated if all the player's plate appearances (one or more) result in a base on balls, hit batsman, defensive interference or a sacrifice bunt. The streak shall terminate if the player has a sacrifice fly and not hit.

CONSECUTIVE-GAME PLAYING STREAK: A consecutive-game playing streak shall be extended if the player plays one half-inning on defense, or if he completes a time at bat by reaching base or being put out. A pinch-running appearance only shall not extend the streak. If a player is ejected from a game by an umpire before he can comply with the requirements of this rule, his streak shall continue.

SUSPENDED GAMES: For the purpose of this rule, all performances in the completion of a suspended game shall be considered as occurring on the original date of the game.

TRADING REGULATIONS: Players are available on waivers in reverse order of standings, at the time waivers expire, if more than 30 days after start of the season; otherwise in reverse order of standings at close of preceding season.

INTER-LEAGUE TRADES: Midnight, five days after the World Series – Midnight, night preceding the last scheduled day of the Winter Meetings – No waivers are necessary. Plus Feb. 15 to Mar. 15.

TRADING WITHIN LEAGUE: Midnight, the last day of the season – Midnight, June 15 – No waivers necessary. Midnight,

June 15 – Midnight, the last day of the season – League waivers necessary.

BATTING CHAMPIONSHIP QUALIFICATIONS: A batting champion must have 502 or more actual plate appearances. (The equivalent of 3.1 appearances for each of the 162 scheduled games.) If, however, there is any player with fewer than the required number of plate appearances whose average would be the highest if he were charged with the required number of official at bats, then that player shall be awarded the batting championship.

EARNED-RUN AVERAGE CHAMPIONSHIP QUALIFICATIONS: To win the earned-run average championship a pitcher must pitch 162 or more innings and have the lowest earned-run average.

FIELDING CHAMPIONSHIP QUALIFICATIONS: A fielding champion must appear in 108 games at his position, except a catcher, who must appear in 81 games.

COMPUTING BATTING AVERAGE: To determine a batting average, divide the number of hits by the number of official times at bat.

COMPUTING EARNED-RUN AVERAGE: To determine an earned-run average, multiply the number of earned runs by nine and divide that result by the number of innings pitched.

SAVE RULE: Saves shall be awarded to relief pitchers under the following criteria:
Rule (10:20) tells the official scorer to credit a pitcher with a save when he meets **all** 3 of the following conditions:

1 – He is the finishing pitcher in a game won by his club; **and**
2 – He is not the winning pitcher; **and**
3 – He qualifies under one of the following conditions:
   a) He enters the game with a lead of no more than three runs and pitches for a least one inning; **or**
   b) He enters the game with the potential tying run either on base, or at bat, or on deck (that is, the potential tying run is either already on base or is one of the first two batsmen he faces); **or**
   c) He pitches effectively for at least three innings.

AMERICAN LEAGUE CURFEWS: No inning of an American League night game can start after 1:00 a.m., local time. Any inning started prior to 1:00 a.m. can be completed.

Saturday night games in Baltimore, Boston, and New York must be halted at 11:59 p.m., local time, regardless of conditions. In other night games in Baltimore, no inning can start after 11:59 p.m., but any inning started before that time may be completed.

Any game, regardless of length, called because of the time curfew, becomes a suspended game and must be completed from the exact point of interruption before the teams play their next scheduled game against each other.

SUSPENDED GAME RULE: A game terminated by curfew or by a pre-arranged time limit is suspended game only if it has progressed far enough to be an official game (i.e., 4½ to 5 innings).

A game terminated by light failure is a suspended game anytime after it begins.

Suspended games shall be resumed at the exact point of suspension immediately preceding the next scheduled single game between the same two clubs on the same ground. If this is not possible, other provisions for resumption are specified in American League regulation 3.8.

A game called at the end of a completed inning after nine innings for any reason shall be a suspended game. This rule became effective in 1969. Formerly, the game would have been declared a tie and replayed in its entirely at a later date.

The completion of a suspended game is the continuation of the original game. Any player may be replace by a player who had not been in the game prior to the suspension. No player removed before the suspension may be returned to the lineup.

NIGHT GAMES AND TWI-NIGHT DOUBLE-HEADERS: Any game scheduled to start after 6:00 p.m. will be considered a night game. If a game is scheduled to start at 6:00 p.m. and is delayed by rain, or for any other reason, it will be considered a day game. If a game is scheduled to start at 6:01 p.m. it will be considered a night game. Twi-night double-headers shall be included in double-header statistics and shall also be considered two night games. When afternoon and night games are played on the same date (separate admissions), the games shall be day and night and count as single games.

THE "MAGIC NUMBER": To determine a club's "magic number" in a pennant race, take the number of games left to play, add one, and then subtract the number of games ahead in the lost column of the standings from the closest opponent.

DOCTORED BAT: If a filled or "doctored" bat is used, the player is to be ejected from the game and suspended three days. Any balls hit by an illegal bat do not count. If the umpire sees the illegal bat before it is used, he issues a warning, but there is no penalty.

DETERMINING A "MAJOR LEAGUE YEAR": 172 days constitute a full year in the major leagues.

ROOKIE QUALIFICATION: A player shall be considered a rookie unless, during a previous season or seasons, he has (a) exceeded 130 at bats or 50 innings pitched in the major leagues; or (b) accumulated more than 45 days on the active roster of a major league club or clubs during the period of a 25-man limit (excluding time in military service).

DESIGNATED HITTER FOR THE PITCHER RULE

A hitter may be designated to bat for the starting pitcher and all subsequent pitchers in any game without otherwise affecting the status of the pitcher(s) in the game. A Designated Hitter for the pitcher must be selected prior to the game and must be included in the lineup card presented to the umpire-in-chief.

It is not mandatory that a club designate a hitter for the pitcher, but failure to do so prior to the game precludes the use of a Designated Hitter for that game.

Pinch hitters for a Designated Hitter may be used. Any substitute hitter for a Designated Hitter himself becomes a Designated Hitter. A replaced Designated Hitter shall not re-enter the game in any capacity.

The Designated Hitter may be used defensively, continuing to bat in the same position in the batting order, but the pitcher must then bat in the place of the substituted defensive player, unless more than one substitution is made, and the manager must then designate their spots in the batting order.

A runner may be substituted for the Designated Hitter and the runner assumes the role of Designated Hitter.

A Designated Hitter is "locked" into the batting order. No multiple substitutions may be made that will alter the batting rotation of the Designated Hitter.

Once the game pitcher is switched from the mound to a defensive position this move shall terminate the Designated Hitter role for the remainder of the game.

Once a pinch hitter bats for any player in the batting order and then enters the game to pitch, this move shall terminate the Designated Hitter role for the remainder of the game.

Once the game pitcher bats for the Designated Hitter this move shall terminate the Designated Hitter role for the remainder of the game.

Once a Designated Hitter assumes a defensive position this move shall terminate the Designated Hitter role for the remainder of the game.

SCORING RULES: PINCH-HITTERS

(Adopted by the Official Records Committee)

A player shall be considered a pinch-hitter only if he enters the game as a substitute batter and then only on his first time at bat which must be before he becomes a fielder. (If the team bats around and a pinch-hitter comes up a second time in the inning in which he first appeared, he will not be considered a pinch-hitter during that second time up.)

A substitute hitter for a designated hitter is both a pinch-hitter and a designated hitter on his first time at bat. On subsequent trips to the plate he is a designated hitter only. (Until now such a substitute hitter had not been considered a pinch-hitter. American League pinch-hitting records for 1973-1975 will be recompiled to conform with this new definition.)
